*Credits:* UCLA is on the quarter system. As a general guide, a semester is worth 1.5 quarter units (e.g. 4 quarter units - 2.5 semester units). UCLA courses are generally accepted for transfer credit, but all decisions on transferability rests with the home institution. Students should get advance approval of their UCLA summer courses from your home institution before they enroll and register.

*Grading Policies:* Students are expected to complete all assigned coursework, take all examinations, attend class regularly and submit all required work by the end of the session. No part of the coursework may be continued beyond the close of the course unless prearranged by the student and the faculty. The grading system is the same as during the academic term. A, B, C, D, F, I (Incomplete work is of passing quality but incomplete for a good cause) and DR (Deferred Report). Grades may be modified by a plus or minus suffix. See UCLA General Catalog for details. If you want Pass/No Pass (undergraduate students) or Satisfactory/Unsatisfactory (graduate students) grading rather than for a letter grade, you may use URSA to change your grading options through the 4th week for a 6 week course, 5th week for an 8 week course, or 6th week for a 10 week course. Undergraduate students must earn a grade of C or better to receive a passing grade. Graduate students must earn a grade of B or better to receive a satisfactory grade.
